

Slightly Nutty

Is your cricket powder sustainable?

Our crickets are farmed with you and the environment in mind.

We use high-quality organic byproducts from local food and beverage companies to feed our crickets, resulting in the most sustainable and affordable cricket powder on the market.

■ Water use

■ Land use

Our crickets require significantly less water and land to produce because we use recycled food byproducts instead of chicken feed composed of crops like soy, wheat, and corn.

Nutritious

65% protein, high in
omega-3, iron,
B vitamins

Versatile

Mild flavor and
easily blended with
many ingredients

Safe

Farmed and
processed by USDA
and FDA standards
